The need for review

5 years of experience of what works and what does not

We agreed it would be reviewed within 5 years

The **P&Cs** deliver sustainable palm oil – how can they do better?

Process

Principle & Criteria Review Steering Group:

- Committee chairs and the Secretariat

Phase 1 – looking at the relevance of the P&Cs

- Big questions and gaps
- Things we have missed
- Selecting issues to go into

Principle & Criteria Review Taskforce:

- Balanced membership

Phase 2 – looking at the effectiveness of the P&Cs

- How to make the suggestions work

Some possible questions:

- Is the definition of sustainable palm oil still relevant?
- What are the sustainability challenges facing palm oil production?
- What can be improved about the Principles & Criteria?
- Do the indicators support the Criteria?
- Should there be P&Cs for other RSPO members?
