HCV beyond compliance
What is HCV?
What is HCV?

A biological, ecological, social or cultural value which is considered to be of outstanding significance or critical importance at the national, regional or global scale.
What is HCV?

A biological, ecological, social or cultural value which is considered to be of outstanding significance or critical importance at the national, regional or global scale.

......to ensure that the values identified are maintained or enhanced.
HCV and New definitions
<table>
<thead>
<tr>
<th>HCV</th>
<th>Current definitions</th>
<th>New definitions under review</th>
</tr>
</thead>
<tbody>
<tr>
<td>HCV 1</td>
<td>Forest areas containing globally, regionally or nationally significant concentrations of biodiversity values (e.g. endemism, endangered species, refugia)</td>
<td>Species Diversity: Concentrations of biological diversity including endemic species, and rare, threatened or endangered species that are significant at global, regional or national levels.</td>
</tr>
<tr>
<td>HCV 2</td>
<td>Forest areas containing globally, regionally or nationally significant large landscape level forests, contained within, or containing the management unit, where viable populations of most if not all naturally occurring species exist in natural patterns of distribution and abundance</td>
<td>Landscape-level ecosystems and mosaics: Large landscape-level ecosystems and ecosystem mosaics, that are significant at global, regional or national levels, and that contain viable populations of the great majority of the naturally occurring species in natural patterns of distribution and abundance.</td>
</tr>
<tr>
<td>HCV 3</td>
<td>Forest areas that are in or contain rare, threatened or endangered ecosystems</td>
<td>Ecosystems and habitats: Rare, threatened or endangered ecosystems, habitats or refugia.</td>
</tr>
<tr>
<td>HCV 4</td>
<td>Forest areas that provide basic services of nature in critical situations (e.g. watershed protection, erosion control)</td>
<td>Critical Ecosystem Services: Basic ecosystem services in critical situations, including protection of water catchments and control of erosion of vulnerable soils and slopes.</td>
</tr>
<tr>
<td>HCV 5</td>
<td>Forest areas fundamental to meeting basic needs of local communities (e.g. subsistence, health)</td>
<td>Community needs: Sites and resources fundamental for satisfying the basic necessities of local communities or Indigenous Peoples (for example for livelihoods, health, nutrition, water), identified through engagement with these communities or Indigenous Peoples.</td>
</tr>
<tr>
<td>HCV 6</td>
<td>Forest areas critical to local communities’ traditional cultural identity (e.g. areas of cultural, ecological, economic or religious significance identified in cooperation with such local communities)</td>
<td>Cultural values: Sites, resources, habitats and landscapes of global or national cultural, archaeological or historical significance, and/or of critical cultural, ecological, economic or religious/sacred importance for the traditional cultures of local communities or Indigenous Peoples, identified through engagement with these local communities or Indigenous Peoples.</td>
</tr>
</tbody>
